(7) Modern Inventions

Fatwa No. 8979 :

Q: In light of the spread of the phenomenon of ground water prospecting and well digging in primitive ways relying on what they call "Murzim" or "Al-Mosmi`" i.e. those who reveal the existence of wells in a particular place. If Murzim or Al-Musmi` finds a good environment, they do not ascribe the knowledge of underground water passages to themselves but refer the matter to Allah's knowledge. If they find another environment, they indicate the underground streams of water, its paths, and colors of the earth layers which the digger will encounter and suchlike unseen matters, which can not be assigned to proficiency and experience. People are often fascinated by their sayings when what they say happens. Furthermore, I do not know anyone who does not rely on the statements of these Murzimun or Musmi`un and their like. Indeed, this belief is firm in the hearts of the people and even in the minds of many intellectuals. Although soothsaying and fortunetelling have been rejected in the creedal books, many continue to believe that the prohibition is not applied to Murzimun or Musmi`un as they call them.

(Part No : 1, Page No: 652)

Therefore, we hope that your eminence will advise, guide, and clarify the ruling on this question with reference to those who die holding this belief, Finally, what are the ways we can use without the Musmi`un or Murzimun and their likes?

A: If testing the earth is for discovering what is hidden in its depths by modern equipment and instruments based on experiments conducted on the layers of the earth and previous experience, it is not part of soothsaying or knowledge of the unseen, but it is part of knowing the causes just as doctors diagnose the type of disease through modern medical equipments. Such cases are approved because they are in conformity with the laws of causality that Allah places in the universe.

Accordingly, the Muslim faith is free from danger on this point. However, if knowing the hidden treasures in the earth relies on mere suggestions independent from the cosmic reasons and scientific experiments, it is a kind of fabrication and fraud that sometimes comes true.

May Allah grant us success! May peace and blessings be upon our Prophet, his family, and Companions!
